

Mechanical Tachometer DF6186

Fixed Mounting Pulse Tachometer to DWG 12258931-1

- Pulse tachometer produces a signal proportionate to rotational speed
- Robust design for operation on vehicles in challenging environments
- Suitable for exposure to oils, fuels and coolants
- Self-lubricating for long service life
- DF6169 features a single female take-off connection
- DF6186 features male and female take-off connections
- Environmentally 90° sealed cable and Sure-Seal connector
- Removable drive tip
- All manufacturing in accordance with ISO 9001:2015
- Cage Code 0TSK1

ESI Part Number	Part Number	NSN	Range
DF6186	12258932-1	6680-01-114-7653	N/A

Advantages:

The DF6186 Mechanical Tachometer has been designed for permanent installation on a vehicle with male and female take-off connections and is manufactured using materials and procedures outlined in MIL drawings and specifications.

Each unit is tested in environments that have been created to mimic the harsh physical conditions in the field and must pass the thorough final inspection procedures in order to ensure conformance to the relevant MIL standards.

ESI has a proven track record for quality and workmanship, and a long history of supply to demanding defense applications.

SUCO ESI North America

THE WORLDWIDE SPECIALIST FOR CUSTOMIZED PRESSURE TRANSDUCERS & TRANSMITTERS

SUCO ESI North America has become one of the leading suppliers for specialized pressure sensors by offering bespoke solutions for specific applications.

With a dedicated manufacturing and engineering facility in UK, our company serves an extensive range of major industries such as Defense, Aerospace, Marine, Oil and Gas, Test and Calibration.

Being a key supplier to these industries requires high performance, not only in terms of products, but also from design and sourcing through to shipment and customer service.

ESI's Management System is approved to ISO 9001:2015, and ATEX, IECEx and DNV-GL approval is available on a wide range of products.

Throughout the product range, ESI uses a variety of state of the art sensor technologies to make each product a perfect fit to the desired application. The jewel of ESI's sensor technologies is Silicon on Sapphire, which has redefined the performance capability of pressure monitoring products.

With a wide sales network, SUCO ESI North America is able to deliver its special services globally. If you can't find the suitable solution on our catalog, please do not hesitate to contact the sales team.

We are looking forward to serve you!
