New safety brake systems

Independent centrifugal technology
for all small wind turbines

SUCO centrifugal brakes for small wind turbines

Normal operation

independent

Protects rotors and gearing without external energy

Braking process

safe

Stepless braking to a complete standstill

Automatic restart

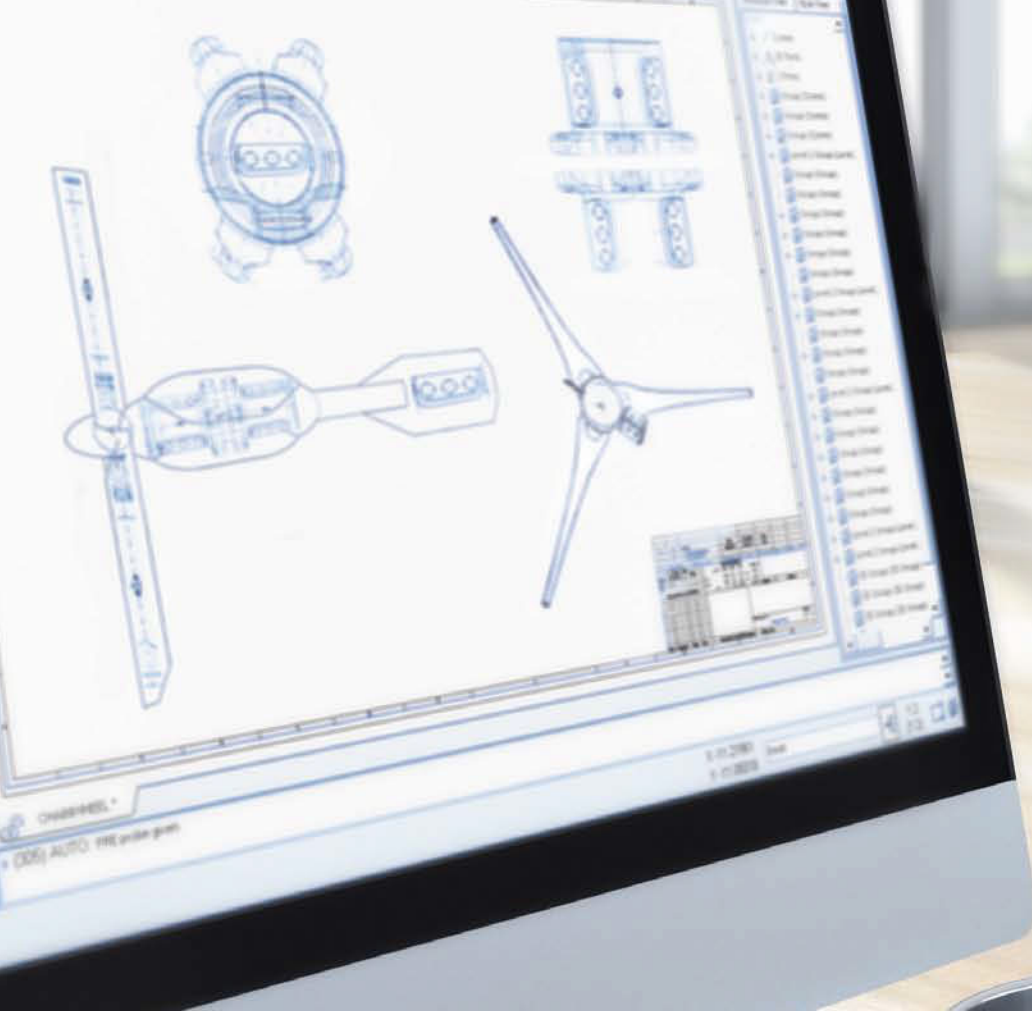

comfortable

Independent restart without any external intervention

suco-tech.com

SUCO has specialized in Centrifugal Technologies for over 60 years. We have developed a patent registered safety braking system which can be adapted to your needs. You will receive complete integrative solutions, made in Germany.

Let's work together, call us.
