

Pulse Tachometer DF6189

Fixed Mounting Pulse Tachometer to DWG 12258931-2 w/Tang drive 30134

- Pulse tachometer produces a signal proportionate to rotational speed
- Robust design for operation on vehicles in challenging environments
- Connection: 7/8-18 UNS-2B (female nut)
- Output: Two pulses (poles) per revolution
- DF6189 features a single female take-off connection
- Environmentally 90° sealed cable and Sure-Seal connector
- Removable drive tip
- All manufacturing in accordance with ISO 9001:2015
- Cage Code 0TSK1

Advantages:

The DF6189 Mechanical Tachometer has been designed to be permanently installed and is manufactured to meet the exacting needs of military standards and provide outstanding reliability and service in the field.

The tachometer, also known as a speed transmitter, is constructed using materials which conform to the requirements outlined in MIL drawings and specifications offering outstanding environmental protection when exposed to harsh physical conditions.

ESI ensures product is fit for purpose by employing 100% final inspection testing protocol and by adhering to workmanship according to the relevant MIL standards. Products are checked for conformity and supplied with relevant certification as standard.

Our products are ensured to be fit for purpose by employing 100% final inspection testing protocol and by adhering to workmanship according to the relevant MIL standards. Products are checked for conformity and supplied with relevant certification as standard.
